

Netrin Accountable Care

Maryland Care Transformation Organization

Applying for the

Maryland Primary Care Program

The Maryland Primary Care Program (MDPCP) is now recruiting for 2021. MDPCP is a voluntary program open to all qualifying Maryland primary care practices. It provides funding and support for the delivery of advanced primary care throughout the state. Federally qualified health centers are also eligible to participate as of 2021.

MDPCP supports the overall health care transformation process and allows primary care providers to play an expanded role in prevention, management of chronic disease, and preventing unnecessary hospital utilization. In the 2019 / 2020 Performance Year, over 80% of eligible practices applied for the program, and enthusiastic application is also anticipated for the 2021 Year.

Practice Eligibility:

- ❖ Primary Care practices in Maryland comprised of physicians, clinical nurse specialists, nurse practitioners, and physician assistants
- ❖ Provider Specialty designations include: General Practice, Family Medicine, Internal Medicine, Obstetrics and Gynecology, Pediatric Medicine, Preventive Medicine, Geriatric Medicine, and co-located Psychiatry.
- ❖ Use a certified electronic health record (EHR)
- ❖ Provide services to a minimum of 125 attributed Medicare fee-for-service beneficiaries

Improved Health: MDPCP is dedicated to improving health outcomes for all patients, focusing on the five primary care functions:

- ❖ Access to Care
- ❖ Care Management
- ❖ Comprehensiveness and Coordination
- ❖ Patient and Caregiver Experience
- ❖ Planned Care and Population Health

Partners and Supports: All participating practices have access to a Practice Coach, who provides ongoing assistance in meeting program requirements. Practices may also choose to partner with a Care Transformation Organization (CTO) like [Netrin Accountable Care \(CTO\)](#), an entity which can provide additional supports and fulfill staffing needs. Practices also receive many resources, such as support meetings and webinars, an interactive Learning System, and data-driven tools to support functions like risk stratification, social needs screening, and behavioral health integration.

Enhanced Payments: The MDPCP redesigned payments reward value-based, comprehensive care. CMS will provide funding directly to Practices (and Care Transformation Organizations by practice designation) to strengthen and transform the delivery of primary care. The typical primary care practice in the program can expect to receive \$100K or more in annual payments depending on size and program options selected.

Netrin Primary Care ACO

Netrin Health

Netrin Accountable Care

Payment Type	Amount & Frequency	Purpose
Care Management Fees (CMF)	\$6 to \$100 PBPM, paid upfront quarterly	Amount is based on the risk levels of attributed Medicare beneficiaries
Performance-Based Incentive Payments (PBIP)	\$2.50 to \$4 PBPM, paid upfront annually	Balanced against measures of quality, patient satisfaction, and utilization

The payment structure is based on Medicare fee-for-service. In the advanced track of the program (Track 2), the typical Medicare fee-for-service payment system gradually transforms to a partial prepayment system, with practices receiving quarterly Comprehensive Primary Care Payments (CPCP) in advance.

2021 MDPCP enrollment period: May 19 – July 14, 2020

NETRIN ACCOUNTABLE CARE CTO SERVES ALL MARYLAND COUNTIES

“

“We are choosing Netrin as our first choice for our Care Transformation Organization. We have had the opportunity to work with the Netrin team since 2014, and it has been a great experience for us.”

Angela Marshall, MD
Comprehensive Women’s Health – Silver Spring

“

“We have worked with Netrin since its inception. We are always impressed with the innovation that Netrin brings to the table. Netrin is our preferred partner for all our value-based care programs and our CTO.”

Reema Jalali, MD
MedPeds LLC – Laurel

“Netrin has been our partner for all our value-based care programs. We are happy that Netrin has now chosen to become a Care Transformation Organization. Netrin has guided us well thus far, and we will continue to work with Netrin as part of the MDPCP-CTO.”

Venkat Ramanan, MD
Patel, Ramanan, & Associates – Waldorf

“We would like to thank Arumani for bringing Netrin into our professional lives. Dedication and professionalism are at the core of Netrin’s DNA. We wish them many more years of success at work in improving people’s lives.”

Rohit Seem, MD
Family Medicine Shady Grove LLC – Rockville

“Netrin had all the patient/office resources in place and expertise on implementing them. Netrin has been very valuable to our practice. Our patients know they are always there for them as an additional resource.”

Angela Paolantonio, Practice Manager
Family Healthcare of Elkton
