

Maryland Medicaid AHEAD

Medicaid Advanced Primary Care Program (MAPCP)

Stronger Care for Medicaid Members.
Simpler Operations for Your Practice.

Netrin Health helps Maryland primary care practices navigate the Medicaid AHEAD requirements with comprehensive operational, clinical, and technology-enabled support.

What is Medicaid AHEAD?

The Medicaid Advanced Primary Care Program (MAPCP) is part of Maryland's AHEAD Model. It is designed to strengthen primary care, improve care coordination, address health disparities, and support better outcomes for Medicaid members.

Program Goals

- ✓ Improve access to comprehensive primary care
- ✓ Proactive identification and management of high-risk patients
- ✓ Better care coordination and transitions of care
- ✓ Address social determinants of health (SDOH)
- ✓ Improve preventive care and patient engagement
- ✓ Enhanced quality reporting and performance improvement

Comprehensive Medicaid AHEAD Support From Netrin Health

We help practices implement, manage, and sustain all aspects of the Medicaid AHEAD program.

1 Program Administration & Compliance

- Practitioner roster management
- Business change coordination
- Program guidance and interpretation
- Deadline and deliverable management
- Ongoing compliance support

2 Clinical Data Integration & Care Coordination

- Patient panel (roster) submissions
- CRISP health information exchange
- Real-time admission & discharge alerts
- Risk stratification and prediction modeling
- Transitions of care support

3 Quality Reporting & Care Transformation

- Practice-reported eCQM reporting
- Annual Care Transformation Requirement (CTR) submissions
- Outreach to unengaged Medicaid members
- Audit readiness and support

4 Population Health Analytics & Performance Intelligence

- Multi-source data analysis
- Patient-level opportunity identification
- Practice-level performance analysis
- Actionable dashboards and reporting
- Ongoing performance reviews

5 Practice Transformation & Workflow Optimization

- Workflow assessment and redesign
- EHR workflow optimization
- Care team integration
- Practice-specific implementation
- Ongoing performance improvement

6 Pediatric & Family Practice Support

- Developmental screening templates
- Autism screening templates
- School and childcare forms workflow
- Support for pediatric-specific program requirements

7 Dedicated Practice Partnership

- Dedicated practice support
- Practice meetings and performance reviews
- Issue resolution and escalation
- Continuous readiness
- Long-term partnership for success

Why Partner With Netrin Health?

- Experience in Maryland primary care transformation (MDPCP and beyond)
- Technology-enabled, scalable support
- Designed for independent practices
- One partner for both Medicare and Medicaid AHEAD

Our Approach

"The support we receive from Netrin is invaluable. The Medicaid AHEAD reporting requirements are complex and very labor intensive. We simply don't have the internal resources to manage all the reporting, regulatory compliance, and care transformation tasks on our own."
